IFZA.COM

# So, you've decided to set up your business in Dubai. **Excellent choice!**

Now that you've got your business license and visa sorted out, it's time to dive into the next crucial step: obtaining your Emirates ID.

If you're not sure what an Emirates ID is, don't worry. We'll walk you through everything you need to know, from the initial application process to renewals and even cancellation.

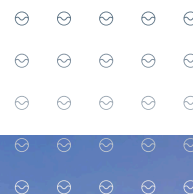

## What is an Emirates ID?

Simply put, this is an official identification card that is issued by the Federal Authority for Identity and Citizenship. It's mandatory for every UAE citizen and resident to have one and carry it at all times.

The Emirates ID serves several purposes:

- Accessing government services.
- Participating in Federal National Council elections.
- Serving as a travel document for UAE citizens within the GCC.
- Facilitating immigration clearance through e-Gates and smart gates at airports.

It's important to note that seizing someone's Emirates ID is illegal. Companies are not allowed to withhold Emirates ID cards from employees, customers, or visitors; they can only collect personal data from the cards. In case of any violation, cardholders should report the issue to the judicial authorities.

# Features of Emirates ID Card

The Emirates ID card is designed with various features to ensure the highest levels of accuracy and security. These include:

Smart Card

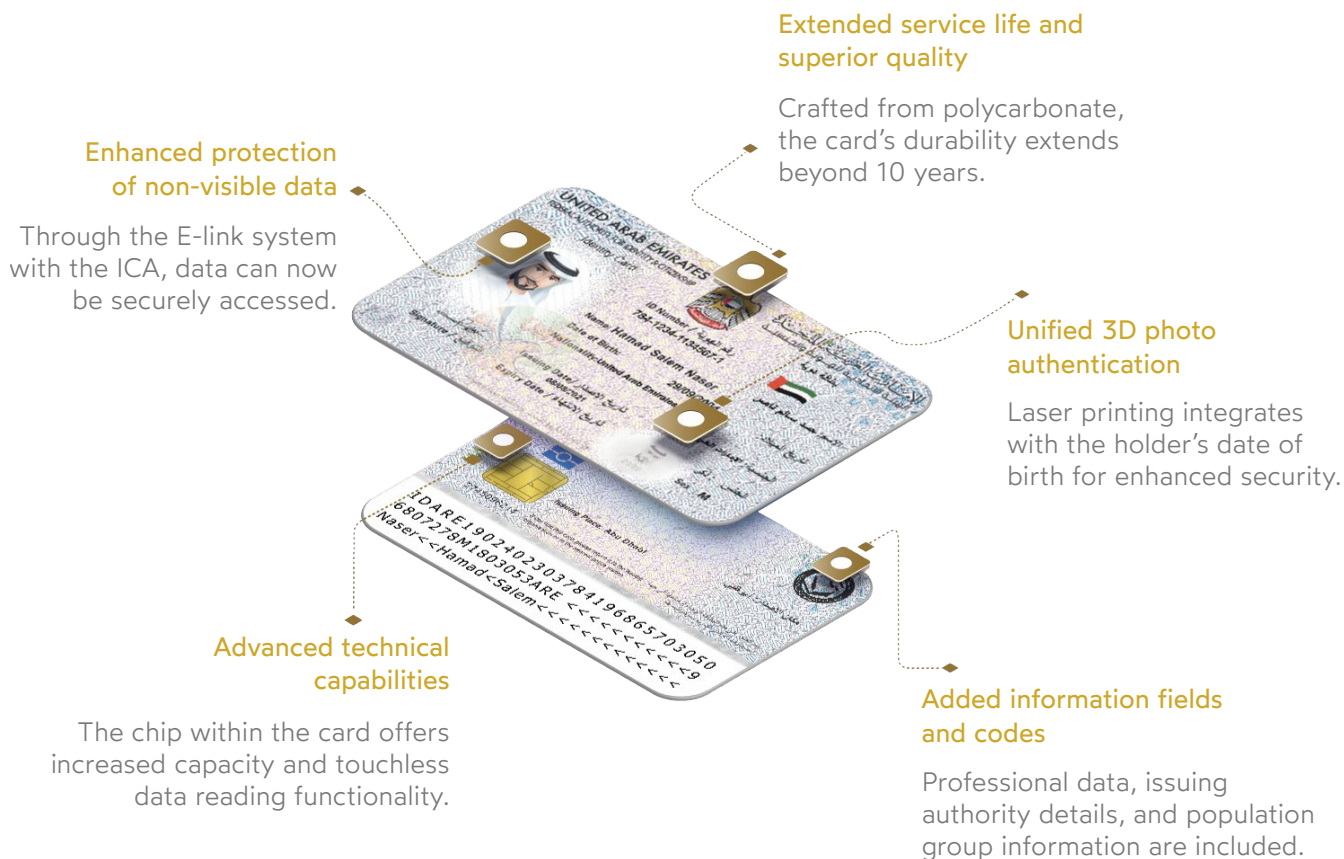

Public Key Infrastructure

Fingerprint Biometric

**Identification Number:** Each card is assigned a unique identification number, which remains with the holder indefinitely. This number allows access to government and selected private services that require ID verification. It consists of 15 digits and is never duplicated.

**Electronic Chip:** The card contains an electronic chip that stores personal data. This data is encrypted and can only be accessed, read, written, or updated by authorized authorities to protect privacy. The chip can store up to 32,000 letters of information.

**Other Technologies:** The Emirates ID card employs state-of-the-art technologies, including accurate lettering, ultraviolet ink, and line drawing. It incorporates nine security features that surpass industry standards, making it highly resistant to falsification. These features exceed those found in many other cards, such as banking credit cards.

# Why Do You Need an Emirates ID?

Living in the UAE without an Emirates ID can pose significant Limitations:

You can't open a bank account.

Renting a property becomes challenging.

Securing a job is nearly impossible.

Domestic travel within the UAE is restricted.

Voting in elections is out of the question.

Accessing government services is off-limits.

Remember, being caught without your Emirates ID could result in fines or even deportation. So, it's crucial to have it with you at all times.

If any details on your Emirates ID card change, it's essential to notify the Federal Authority for Identity, Citizenship, Customs & Ports Security (ICP) promptly. You must report any modifications within one month from the date of the change.

This requirement applies to both UAE nationals and expatriate residents. You can apply to modify or update any details related to your existing and valid Emirates ID card.

## Renew Your Emirates ID

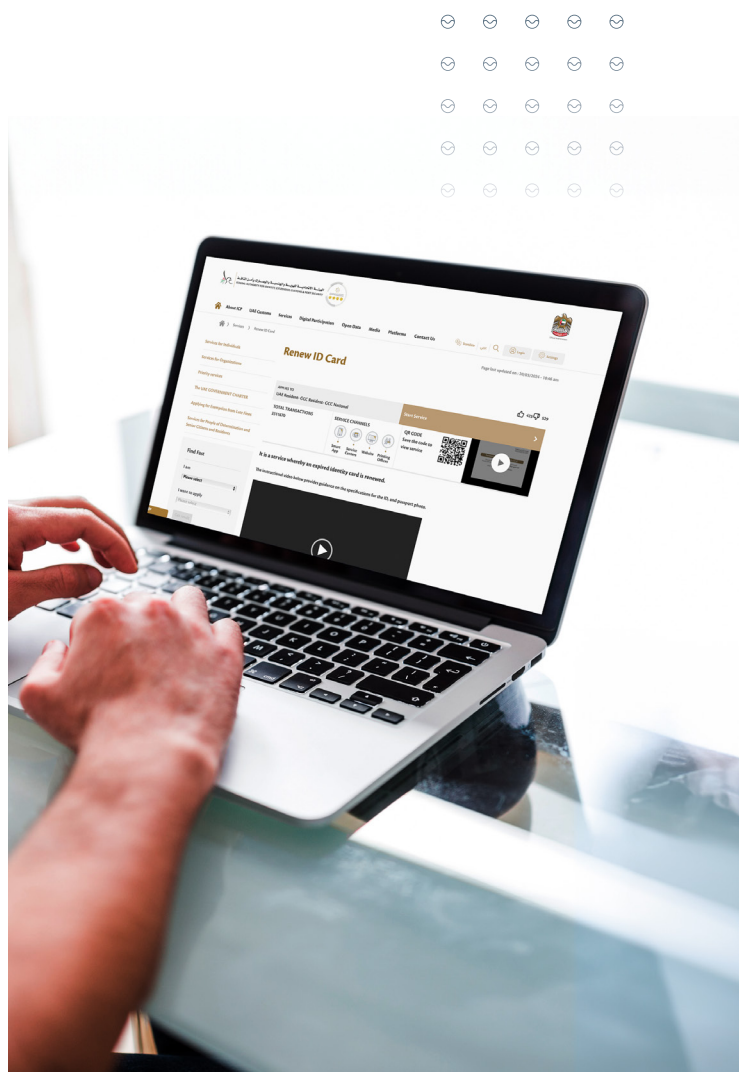

You can renew your Emirates ID within 30 days from the date of expiry to avoid late fines. After the Emirates ID expires, you must apply for its renewal. The Federal Authority for Identity, Citizenship, Customs and Ports Security (ICP) will send you an SMS notification requesting renewal. To renew, you can use the ICP website, ICP App on Google Play, App Store, Huawei, or an accredited typing centre. You may need to visit an ICP service centre to provide biometric details.

Emirates ID renewal can be initiated within a specific timeframe:

- For UAE nationals, renewal can be applied for between six and one month before the expiry date of the Emirates ID.
- UAE residence visa holders can request renewal only when their residence visa is renewed or reissued.

## Cancel an Emirates ID

Residents want to cancel their UAE residence visas, either for leaving the country permanently or changing jobs, must hand over their Emirates ID cards to the relevant General Directorate for Residency and Foreigners Affairs. The returned Emirates ID cards will then be forwarded to the Federal Authority for Identity, Citizenship, Customs and Ports Security (ICP), the issuing authority.
